O poveste despre lumina

Ca în fiecare an, catalogul Grupului Neon aduce în atenția decoratorilor, designerilor și clienților o temă generală cu care dorim să vă inspirăm în proiectele de iluminat arhitectural, ambiental, stradal și festiv. Deoarece lumina face parte din viața tuturor, pentru noi, este o reală bucurie să putem contribui la cele mai interesante și frumoase proiecte de iluminat.

Atunci când orașul și străzile sale sunt scăldate în valuri de lumină ce atrag privirea trecătorilor oferindu-le siguranță și încântare, misiunea noastră este îndeplinită! Astfel, în 2024 vă invităm să trăim împreună o poveste despre lumină – pe cât de complexă, pe atât de captivantă!

Catalogul 2023/2024 dedicat soluțiilor și produselor de iluminat festiv propuse de Grupul Neon, a fost creat pentru a inspira și a aduce în atenția dumneavoastră soluții moderne, eficiente și actuale. De la elemente sofisticate până la elemente clasice sau jucăuze, produsele de iluminat festiv prezente în această ediție vă vor ajuta să puneti în scenă povestile magice ale sărbătorilor, precum și istoria locului.

A Lighting Story

As in each year, Neon Group's catalogue brings in the attention of decorators, designers and clients a general theme to inspire your architectural, ambient, street and festive lighting projects. Since light is part of everyone's life, for us, it is a pure joy to be able to contribute to the most beautiful and interesting lighting projects.

When the city and its' streets are bathed in light catching the eye of the passerby, offering them safety and charm, we consider our mission to be accomplished! Therefore, in 2024 we invite you to join our lighting story – both complex and captivating!

Neon Group's 2023/2024 catalogue for festive lighting solutions and products, was designed to inspire and bring forth modern, effective and up-to-date solutions. Starting with sophisticated element up to classic and playful elements, the festive lighting products from this edition will help you stage both the enchanting holiday stories and the history of the place.

Stimati Parteneri,

În baza ultimelor cercetări din domeniu și tendințe de piată, putem afirma cu încredere că păsim într-o nouă etapă a tehnologiilor și soluțiilor de iluminat. Este vorba despre etapa arhitecturii luminii, în care iluminatul devine elementul central al spațiilor publice și private.

Dezvoltarea orașelor și caselor inteligente vizează maximizarea utilizării luminii naturale pe de o parte, și eficientizarea iluminatului artificial pe de altă parte. Dat fiind că cele două aspecte converg spre realizarea unui ambient cât mai propice activității umane, consider că experiența celor 29 de ani de activitate în domeniul tehnologiilor și soluțiilor de iluminat sunt garanția calității și competențelor necesare acestei noi etape.

Dezvoltarea Grupului Neon pe piața internațională a soluțiilor și sistemelor de iluminat au pus bazele unor noi standarde de calitate. Mulțumim cu această ocazie partenerilor specializați și clienților care au avut și au în continuare încredere în echipa noastră pentru proiecte de ampioare, de la faza de prototipare până la cea de implementare. În consecință, pe lângă soluțiile clasice, în perioada următoare vă propunem soluții avansate de iluminat, ce urmăresc cu precădere creșterea eficienței energetice și a flexibilității sistemelor.

Cu intenția de a aduce energie prin lumină în cadrul proiectelor dumneavoastră, vă invit să parcurgeți catalogul Neon Lighting 2023/2024 și să apelați cu încredere la noi.

Cu stimă / Best regards,

ing. Augustin Cosma
CEO

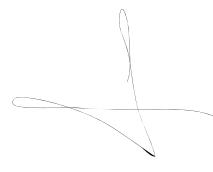

Dear Partners,

On the grounds of the latest field research and market trends, we can declare that we are literally stepping in a new lighting technologies and solutions era. It is about the era of the architecture of light, where lighting becomes the central element of public and private space.

The development of intelligent cities and houses aim at maximizing the use of natural light on one hand, and the effectiveness of artificial lighting on the other hand. Since both aspects converge towards the creation of the most favorable ambient for human activities, I consider our 29 years of experience in lighting technologies and solutions as a quality and competency warrant for this new era.

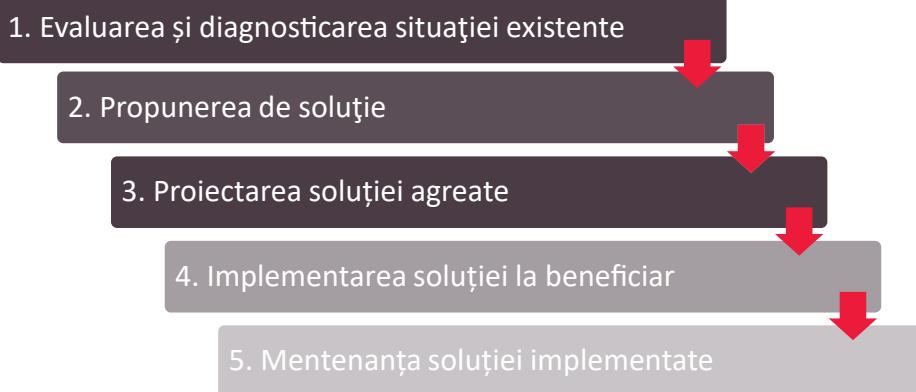

The development of Neon Group on the international lighting solutions and systems set the foundation for new quality standards. On the occasion, we thank all our specialized partners and customers that trusted our team with large complex projects, from prototyping to implementation. Consequently, in addition to the classic lighting solutions, in the following years we set forth advanced lighting solutions, that are mainly focused on increasing the effectiveness of power consumption and the flexibility of lighting systems.

Aiming at bringing energy through light to your projects, you are welcome to check our 2023/2024 Neon Lighting catalogue and to trustfully get in touch with us.

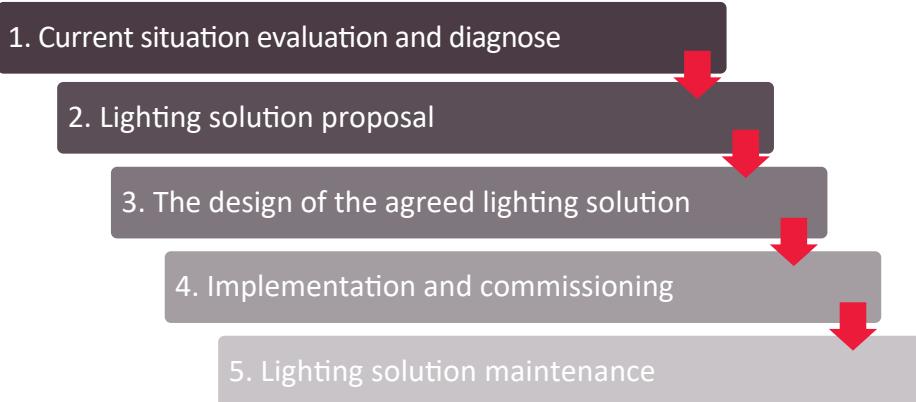

Solutii complete pentru iluminat / Complete Lighting Solutions

Neon Lighting oferă soluții complete pentru iluminat stradal, arhitectural, festiv și ambiental vizând creșterea eficienței și flexibilității sistemelor prin inovațiile tehnice și tehnologice de ultimă oră.

Neon Lighting offers complete solutions for street lighting, architectural lighting, festive lighting and ambient lighting aiming to increase the effectiveness and flexibility of lighting systems through cutting-edge technical and technological innovations.

Tematica 2023/2024

Naturalețe și autenticitate.

Forme, culori și texturi inspirate din natură au menirea de a recrea anotimpuri, peisaje și senzații trăite în aer liber. Elementele organice, rustice și elementare sunt incluse în decor pentru a recrea senzația de acasă, de familiar și de tradiție a locurilor.

Vibratie și exaltare.

Strălucire, materiale seducătoare, jocuri de lumini, spirit de petrecere, muzică ultra-modernă – conturează un cadru festiv plin de energie și exuberanță. Persoanele active, îndrăznețe și cu un apetit declarat pentru elemente avangardiste vor prefera aceste tendințe glam.

Blândețe și prietenie.

Una din liniile preferate pentru iluminatul festiv, elementele blânde și prietenoase readuc în scenă poveștile cunoscute din copilărie, personaje mitice, astrele cerului și o cromatică căldă.

La urma urmelor, familia și prietenii sunt cei care contează de sărbători!

Bucurie și joc.

Verde- brad, turtă dulce, steaua de Crăciun, renii Moșului, fulgi de nea, îngerași și stele zglobii – acestea sunt elementele care aduc bucurie și veselie în fiecare casă! Să le reducem cu drag printre noi și să ne bucurăm cu suflet de copil de magia sărbătorilor!

Themes 2023/2024

Natural & Authentic.

Nature inspired shapes, colors and textures are intended to recreate seasons, sceneries and open air experiences. Organic, rustic and essential elements are included in the décor in order to recreate the feeling of home, of familiar and of local tradition.

Vibration & Exhaltation

Magnetic, appealing materials, light shows, party spirit, ultra-modern music – outline a festive scenery full of energy and exuberance. Active, bold individuals with an openly appetite for avantgarde elements will prefer these glam tendencies.

Tenderness & Friendship.

One of the favorite festive lighting trends, gentle and friendly elements bring on stage the charming fairytales that we all know since childhood, mythical characters, stars and a warm color palette. In the end, all those who matter for holidays are family and friends.

Joy & Playfulness.

Evergreen tones, ginger bread, the Christmas star, raindeers, snowflakes, angels and playful stars – these are the elements that bring joy and happiness in each home! Let's bring them among us and enjoy with a child's heart the holidays magic!

Illuminat stradal

Din categoria soluțiilor pentru iluminat public, Neon Lighting se mândrește cu o experiență redutabilă în proiectarea și implementarea soluțiilor de iluminat stradal.

Având un know-how tehnic de specialitate și o gamă completă de produse destinate rețelelor de iluminat stradal, echipa Neon Lighting integrează în soluțiile oferite și inovațiile tehnologice de ultimă oră. Un număr mare de administrații locale recomandă echipa Neon Lighting care deja susține efortul acestora de a pune în funcțiune sisteme de iluminat inteligente.

Pentru dimensionarea corectă a sistemului de iluminat stradal intelligent, specialiștii Neon Lighting oferă estimări tehnico-financiare și simulări virtuale, înaintea dării în execuție a proiectului.

Street Lighting

As a professional lighting solutions provider, in the public lighting arena, Neon Lighting is proud of its reputable experience in designing and implementing street lighting solutions.

With a deep technical know-how and a full range of products for street lighting, Neon Lighting team integrates the latest innovations within the offered solutions. A large number of local administrations recommend Neon Lighting team who already is actively supporting their efforts to set in place intelligent lighting systems.

For the correct sizing of the intelligent street lighting system, Neon Lighting specialists propose technical-financial estimates and virtual demos, before the execution and commissioning of the lighting projects.

Iluminat arhitectural

Iluminatul arhitectural câștigă tot mai mult teren în estetica generală a spațiilor publice. Iluminatul arhitectural artistic și intelligent duce la creșterea atractivității cartierelor, obiectivelor turistice și la creșterea sentimentului de siguranță a vizitatorilor.

Iluminatul arhitectural ce pune în valoare fațadele monumentelor, structura podurilor și arhitectura construcțiilor emblematici creează experiențe noi în ochii locuitorilor și turiștilor. Pentru evidențierea unei clădiri, unei arene sportive sau oricărui obiectiv de interes public, specialiștii Neon Lighting vă pot propune diverse soluții și produse.

Variantele propuse respectă cerințele și standardele de iluminat urban, iar soluția finală va corespunde criteriilor estetice și tehnico-financiare impuse. Oferta de servicii și produse Neon Lighting se va completa cu soluții și recomandări de eficiență energetică. În final, se trece la execuția și montajul sistemului de iluminat arhitectural.

Architectural Lighting

Architectural lighting gains more terrain in the overall aesthetics of the public space. An artistic and intelligent architectural lighting increases the neighbourhoods' and tourist attractions' appeal and leads to an increased sense of safety from the visitors side.

The architectural lighting that highlights the monuments' facades, the structure of bridges and the iconic buildings' architecture create a new experience in the eyes of the inhabitants and tourists. In order to differentiate a building, a sports arena or an objective of public interest Neon Lighting experts may design customized lighting solutions and products.

All the proposed solution alternatives fully respect the urban lighting standards, therefore the final solutions will fully comply with the imposed aesthetic and technical-financial criteria. The service and product range will further be completed with solutions and recommendations on energy effectiveness. As a last step, the team will commit to the execution and fitting of the architectural lighting system.

Iluminat ambiental

Iluminatul ambiental poate fi clasificat în trei mari componente: iluminatul casei, iluminatul spațiilor de retail și spațiilor de agrement, iluminatul spațiilor de birouri și spațiilor industriale.

Impactul iluminatului ambiental asupra oamenilor este puternic: iluminatul corespunzător influențează comportamentul cumpărătorului într-un magazin, al oaspetelui într-un complex hotelier, respectiv al angajaților dintr-un birou sau dintr-o fabrică.

Iluminatul ambiental poate resetă atmosfera spațiilor de orice tip: reședință privată, hoteluri, restaurante și cafenele, cluburi, birouri, spații industriale, spații expoziționale, spații comerciale. Fiecare spațiu interior provoacă prin exigențele specifice domeniul său.

Neon Lighting vă pune la dispoziție expertiza și creativitatea echipei noastre în realizarea iluminatului ambiental ce integrează sisteme eficiente, flexibile și resetabile.

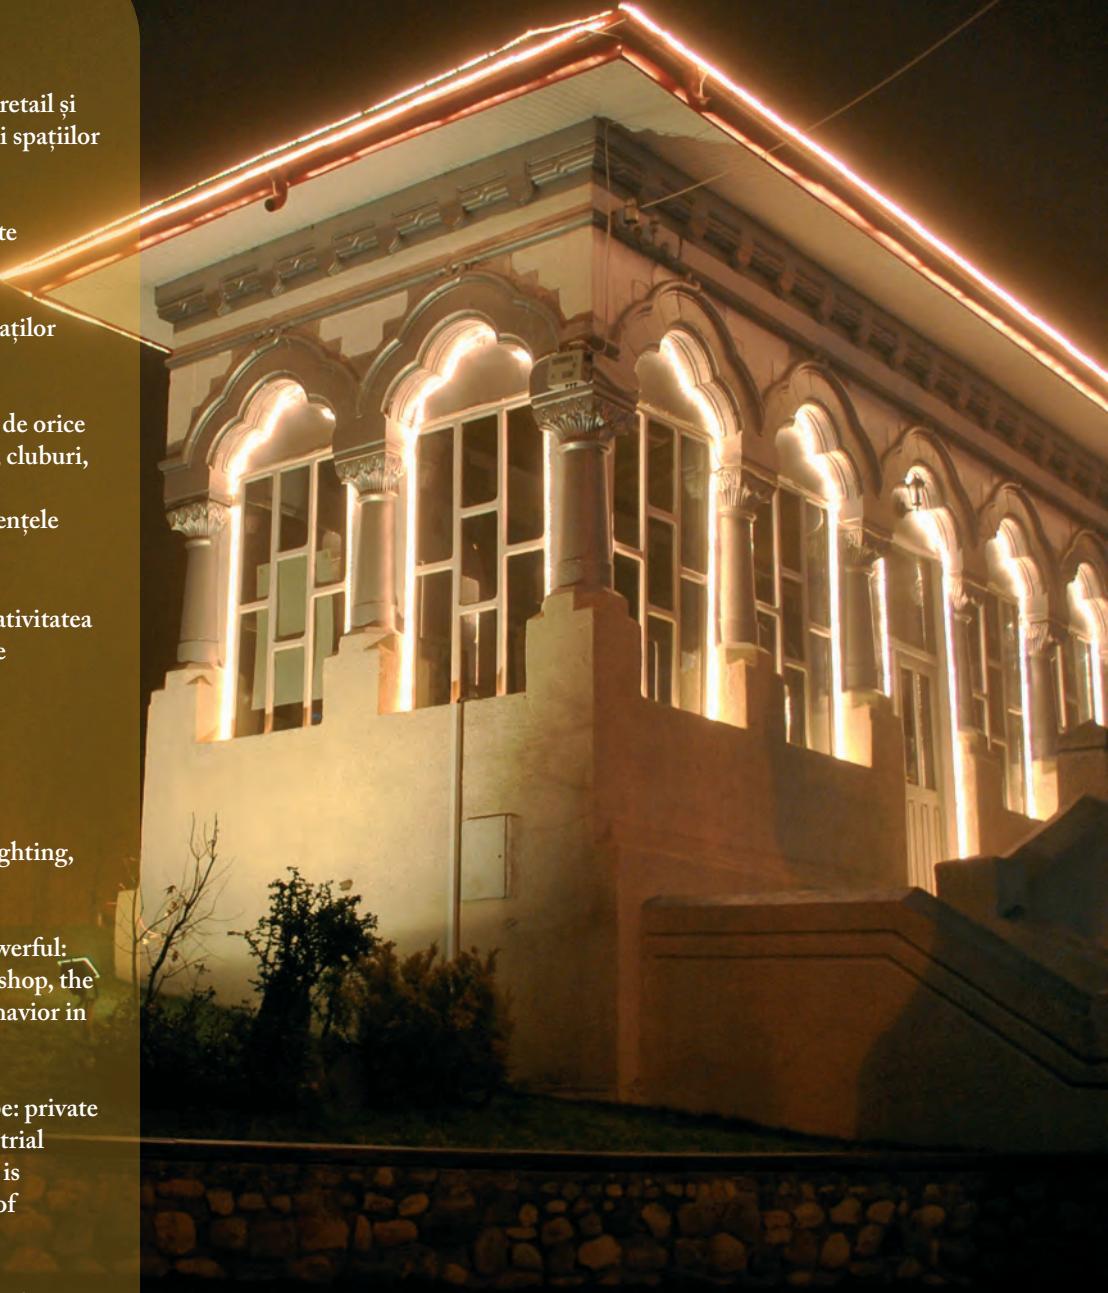

Ambient Lighting

Ambient lighting may be structured in three main components: home lighting, retail and tourist space lighting, office and industrial space lighting.

The impact of ambient lighting on humans is very powerful: adequate lighting influences the buyers' behavior in a shop, the guest's behavior in a hotel resort or the employees' behavior in an office or factory.

Ambient lighting may reset the scene of any space type: private home, hotel, restaurant and cafes, clubs, offices, industrial halls, exhibition halls, retail shops. Each indoor space is challenging due to the demands specific to each field of activity.

Neon Lighting brings at your service the expertise and creativity of its team in designing ambient lighting that integrate effective, flexible and resettable systems.

Iluminat festiv

Lumina este o inspiratie constantă. Având capacitatea de influența ritmul cotidian al vietii noastre, Lumina a devenit simbol universal al vietii, al bucuriei și al renașterii. Momentele marcante ale vietii noastre fizice și spirituale sunt celebrate adeseori aducând o formă, o sursă de lumină în cadrul ceremoniilor laice și religioase.

Neon Lighting vă pune la dispozitie competențe profesionale superioare in domeniul iluminatului festiv de mică și mare anvergură, pentru exterior și interior, oferind soluții inovatoare și lucrări originale.

Pentru sărbători religioase – Sfânta Sărbătoare de Crăciun, Sfânta Sărbătoare de Paște, sărbători laice – Dragobete, Sânziene, zilele orașului, zilele cetății, etc., un moment din viața companiei – aniversarea de companie, lansarea unor produse sau locații noi, sau o festivitate națională, ceremonii ale aparatului preșidential, ale aparatului militar, festivaluri culturale etc. Echipa Neon Lighting vă oferă o gama complexă de servicii și produse.

Festive Lighting

Light is a constant inspiration. With the capacity of influencing our daily life's routine, Light has grown into the universal symbol of life, of joy and of rebirth. The most remarkable moments of our physical and spiritual are often celebrated with some sort of light during laic and religious ceremonies.

Neon Lighting brings at your service superior professional competencies in the field of small and large scale festive lighting, both for outdoor and indoor systems, including innovative solutions and original works.

Should we speak of religious holidays – Christmas, Easter, of popular holidays – Dragobete (Valentine's Day), Sânziene (Midsummer Fairies), the city's or fortress' days, a corporate event – company anniversary, a product or unit launch, or of national holidays, presidential and military ceremonies, cultural festivals and so on. The Neon Lighting team offers a complex range of services and products.

Crăciun 2023/2024

Colecția Neon Lighting pentru sezonul Crăciun 2023/2024 cuprinde produse de iluminat ce acoperă necesarul de amenajare integral al spațiilor publice în această perioadă, produse decorative care să dea un specific fiecărei amenajări și produse speciale care să diferențieze zona sau tema aleasă de către beneficiari. Cel mai important însă, este să știi că echipa de design și creație Neon Lighting vă poate sprijini în realizarea unui decor festiv de impact care să fie atât în tendințe cât și în spiritul autentic al locului.

Christmas 2023/2024

Neon Lighting collection for 2023/2024 Christmas season includes lighting products that cover the entire lighting must-have range for public space during this time of the year, decorative objects that give that special local feeling for each set-up and special products that can differentiate the area or theme chosen by the beneficiaries. What is most important though, is that Neon Lighting team can support you in the making of a high impact festive decor that will be both in trend and in the local authentic spirit.

Iluminat decorativ universal

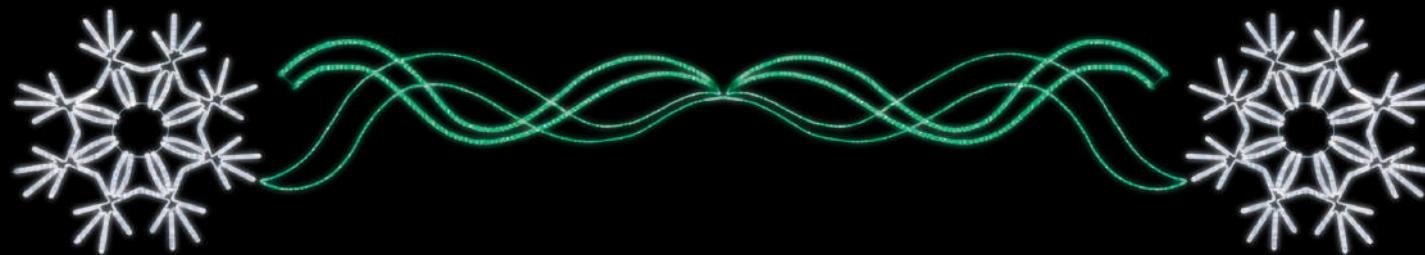

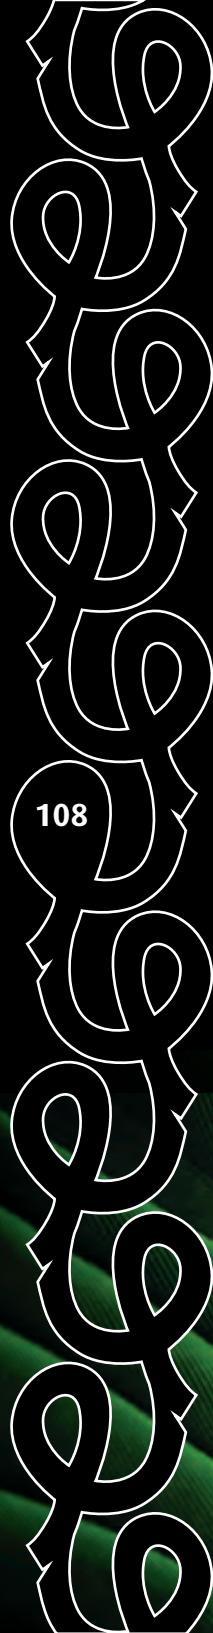

Iluminatul decorativ universal este utilizat pentru spații comerciale indoor sau outdoor, pentru spații publice, fântâni, foioșare, căsuțe din cadrul diverselor târguri și expoziții. Fiind un mediu foarte competitiv deoarece trebuie puse în valoare produse, vitrine amenajate, identități de brand, valori estetice sau idei-manifest, iluminatul decorativ universal este unul din cele mai dinamice segmente ale iluminatului electric.

În ediția 2023/2024 ne-am propus să aducem soluții care să inspire și să ducă proiectele dumneavoastră la un alt nivel.

Universal Decorative Lighting

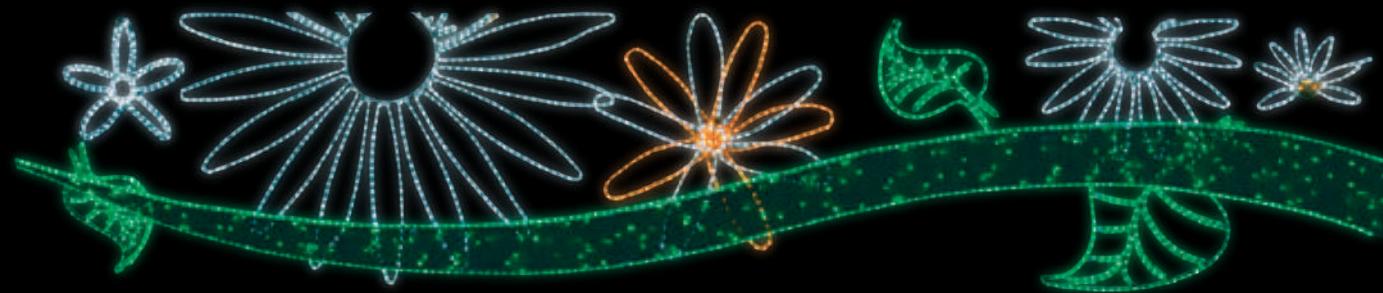

Universal decorative lighting is used for retail indoor and outdoor space, for public space, fountains, garden foyer, little houses from various fairs and exhibitions. As one of the most competitive fields since there are products, shop windows, brands, aesthetic values or manifesto-concepts to be highlighted, universal decorative lighting is one of the most dynamic segments of electric lighting.

In the 2023/2024 edition we proposed ourselves to put forth solutions that inspire and bring your projects to a whole new level.
